## Youtravel expands in Italy

Youtravel has added over 100 hotels in Italy, with a focus on Rome, Florence and Venice.

The accommodation provider said hotels in Milan will be added shortly.

The expansion has also seen the addition of new resort hotels in Sicily, Calabria, the Neapolitan and the Venetian Riviera.

"Keeping in view the ever increasing number of low-cost and full service flights to Italian cities, it makes sense for Youtravel.com to look at the city-break market in order to meet its partners demands," said group CEO Ioannis Kent.
